

How to sort your waste

Recycling in Copenhagen

Please sort paper, plastic, cardboard, metal, glass, batteries and foodwaste from your residual waste and discard them in the recycling bins in the courtyard.

Avoid overflow

Distribute the waste evenly in all containers in both sheds in the courtyard.

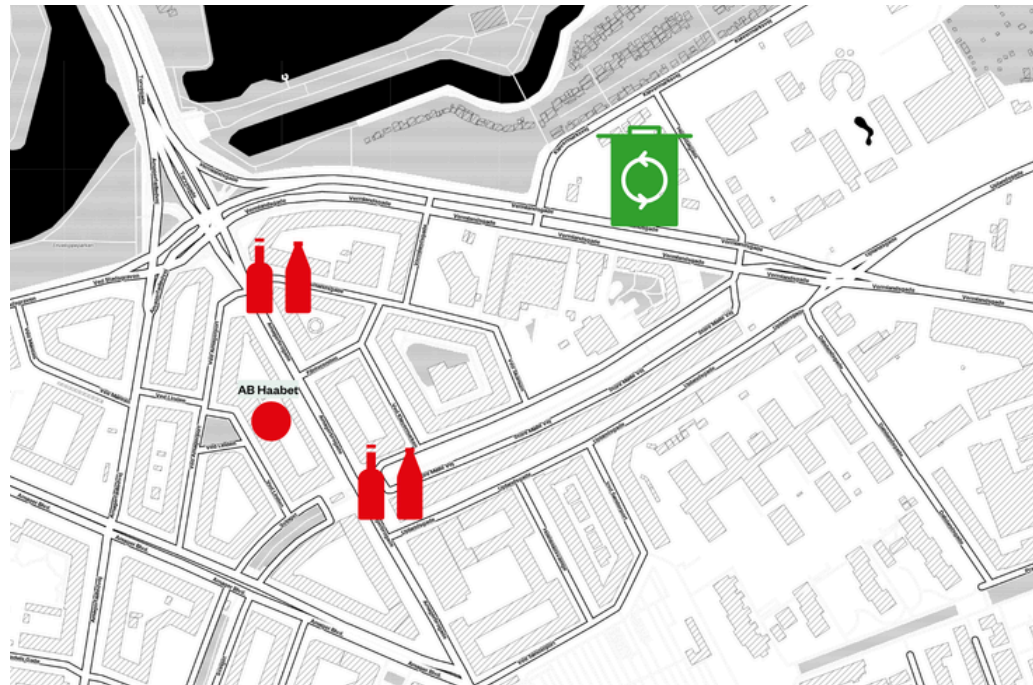

Recyclable glass

Dispose of recyclable glass in one of the public glass containers. (See map.)

Do not leave large items in the courtyard

Living Together

Around 500 people live in AB Haabet's 166 apartments. From time to time, we may disturb each other. Not all noise can—or should—be avoided. However, please keep the following in mind:

Please keep noise to an absolute minimum between 22:00 - 08:00 (10:00 pm and 8:00 am), including in the courtyard, on balconies and in the stairwells.

Washing machines, dryers and other noisy appliances must not be used between 23:00 and 06:00 (11:00 pm and 6:00 am).

Please be mindful of ...

Drains

Do not flush nappies/diapers, sanitary pads, tampons, baby wipes or material other than toilet paper. Doing so may clog the drains and cause serious damage.

Stairwells

Do not leave any storage items or waste in the stairwells.

Bicycles

Please park your bicycle in the bicycle racks.
